Exclusive Agents in Sri Lanka for: "LET", China.

Ref: LLP Company Profile

Liqualogistics and Packegeing Co, also known as **LLP** was established by individuals who have above a decade of experience in the liquid packaging and logistics trade. We have identified many gaps between actual requirements vs request of the customers on such packaging products and intend to close such gaps, providing 100% customer satisfaction. We do not have an MOQ on the products we cater.

Do note that our principle manufacturer is ISO 9001:2015, 14001/2015, 22000 certificated along with Kosher and Halal certifications. The products so offered are confirmed to be "Phthalate Free" and "Migration Free" and would provide certifications on request.

The following general "**Liquid Packaging**" solutions are offered by us, taking in to consideration the "**custom customer specific**" specifications,

- Flexi-Tanks with optional Steam Heater Pads
- 1000 L, Collapsible Paper IBC (Square type with Cube type or Pillow type LLDPE liner) with optional Electric Heater Pads
- Open-Top HM-HDPE
- Tight Head HM-HDPE Drums
- Composite Pallet IBC
- Tight Head Steel Drums
- Open Head Steel Drums
- Fitments

1000 L, Collapsible Paper IBC with optional Electric Heater Pads

1	Product Positioning	At present, traditional transportation for bulk liquid, solid, granule, powder is done with wood box, metal box, and containers. These traditional packaging products cost much with heavy weight, they are difficult to assemble and recycle and occupies large storage space. Paper IBC made of corrugated paper, it is environmental, easily recovered and collapsible during transportation and storage.
2	Parameters	Capacity: 1,000 liters Loading/Unloading type: Top load top discharge, top load bottom discharge. Inner Bag: Food grade Low density polyethylene LLDPE liner. Available liner bag shapes: <ol style="list-style-type: none">1. Cube type: 2 ply2. Pillow type: 3 ply Valve: 2" food grade valve. Accessories: Electric heating pad are available as optional choice.
3	Advantages	Cost-saving: One 20ft container can load maximum of 20MT with Paper IBC, loading 25% more volume than packing with drums, which can load maximum 16MT per 20ft container.
4	Highly-effective	Easy installation and operation, no need to change loading equipment where one person can finish installation within one minute
5	Durability	One single Paper IBC could withstand 8000kg, can be stacked with 3 layers of storage saving space
6	Environmentally Friendly	All paper material used are fully 100% recyclable, no pollution to the environment

HM-HDPE CWM 50 Liters

PRODUCT CODE: CWM 50 L

Images HM-HDPE Container

TECHNICAL DATA

Material:	HM-HDPE (High Molecular Wt. High Density Polyethylene)
Colour:	As per Customer Requirement
Capacity:	Useful: 50 Liters (minimum) Brimful: 51.0 Liters
Tare Weight:	2.8 ($\pm 2\%$) kg

CLOSURES & ACCESSORIES

Applicable Accessories	Injection Molded 6" Cap with inner plug pilfer proof sealing
Mouth Opening:	Outer Thread 147 mm
Sealing Arrangement	Pilfer proof sealing

Body Dimensions

Height	525 mm (± 5 mm)
Belly Dia	397 mm (± 5 mm)

INM 210 Liters XL Ring Drum

PRODUCT CODE: INM-210L

Image of 210 l, XL Ring Drum

TECHNICAL DATA

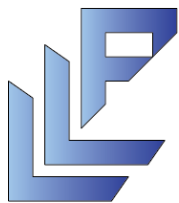

Material:	HM-HDPE (High Molecular Wt. High Density Polyethylene)
Colour:	As per Customer Requirement
Capacity:	Useful: 210Ltrs(minimum) Brimful: 213Ltrs
Top Profile	Special profile facilitates complete emptying
Tare Weight:	8.0/8.2 ($\pm 2\%$)kg

CLOSURES & ACCESSORIES

Applicable Accessories	70 mm B.S Bungs & 80 mm metal Seal caps -02 nos each.
Mouth Opening:	2X70 mm uniform openings provided with matching Bungs for leak proofness.
X-L Ring	2 Nos. extended Top XL-Rings, provided at top and bottom
Sealing Arrangement	Suitable for crimping standard of Metal seal cap.
UN Approval	Yes, UN no embossed-on mold.

Body Dimensions

Height	895mm (± 5)
Belly Dia	587mm (± 5)

COBO IBC 1000L

PRODUCT CODE: COBO IBC 1000L

COMPOSITE PALLET

PLASTIC PALLET

STEEL PALLET

TECHNICAL DATA

Type:	COBO Intermediate Bulk Container 1000 ltr with used Cages and Pallets	
Design:	Rectangular, with U-Profile/round Steel Reinforcement Support Bar	
Material:	(ULTRA) High Molecular Weight High Density Polyethylene (U) HM-HDPE + UV Stabilizer-Inner Bottle	
Colour	Natural	
Capacity (L)	Useful: 1000Ltr	Brimful : 1030Ltrs
Tare Weight	16 (±2%)kg	
Top Opening Dia	150mm(±3mm)	

CLOSURES & ACCESSORIES

Closing System	70 mm B.S Bungs & 80 mm metal Seal caps -02 nos each.	
Discharge Valve	Ball Valve with 100% leak proof.	

Advantages

- Since the bottle is a new one, chances of product contaminations are nil.
- 100% leakage proof with new discharge valve.
- Aesthetic appearance of bottle & IBC is good due to replacement of new crossed bottle on IBC.
- All the crossed bottle are UV stabilized, hence withstand all filling products for longer duration of time.
- Cost effective

Dimensions

Height: 1175mm (+/-2%)	Width: 1000mm (+/-2%)	Length: 1200mm (+/-2%)

SAFETY MEASURES: The HDPE bottles should be stored in such a way that it prevents exposed to direct sunlight and/or heat, as this may lead to quality deterioration. The store locations should be dry & ambient temp should not be exceeding to 50 deg. Not complying with these precautionary measures can lead to a degradation of product which can result in color changes, bad odor & inadequate product performance etc.

Tight Head Steel Drums

PRODUCT CODE: THD-20L to 210L

TECHNICAL DATA

Material:	Steel, with inner epoxy coated, Food grade
Colour:	As per Customer Requirement
Capacity:	Useful: 20 to 210 Ltrs
Thickness	0.9 mm X 0.8 mm X 0.9 mm

These THD drums are made to order and can be customized according to clients reequipment.

Open Head Steel Drums

PRODUCT CODE: OHD-20L to 210L

TECHNICAL DATA

Material:	Steel, with inner epoxy coated, Food grade
Colour:	As per Customer Requirement
Capacity:	Useful: 20 to 210 Ltrs
Thickness	0.9 mm X 0.8 mm X 0.9 mm

These OHD drums are made to order and can be customized according to clients reequipment.
